

Question	Person	week 1 <Requirements Analysis, Schedule Planning & Initial Product Design >					
		Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
What did you do yesterday?	Mr. Phong		Group Meetings Schedule	Backlog stories for Staffs functions	Design the User's Information storaged	Finalize Requirements Analysis Document	Meet with Product Owner to reconfirm Requirements
	Mr.Hieu		Group Meetings Schedule	Backlog stories for Tutor functions	Design the authorities for role	Report Analysis Findings	Meet with Product Owner to reconfirm Requirements
	Mr.Thong		Group Meetings Schedule	Backlog stories for Admin functions	Structure design for database	Report Analysis Findings	Meet with Product Owner to reconfirm Requirements
	Mr.Vinh		Group Meetings Schedule	Backlog stories for Student functions	Schema for Blog's data flow	Report Analysis Findings	Meet with Product Owner to reconfirm Requirements
	Mr.Trung		Group Meetings Schedule	Backlog stories for Tutor functions	Schema for Allocation function	Report Analysis Findings	Meet with Product Owner to reconfirm Requirements
	Ms.Hue		Group Meetings Schedule	Backlog stories for Staffs functions	Schema for Comment's data flow	Report Analysis Findings	Meet with Product Owner to reconfirm Requirements
What did you do today?	Mr. Phong	Group Meetings Schedule	Backlog stories for Staffs functions	Design the User's Information storaged	Finalize Requirements Analysis Document	Meet with Product Owner to reconfirm Requirements	Allocate Works for each Team Members
	Mr.Hieu	Group Meetings Schedule	Backlog stories for Tutor functions	Design the authorities for role	Report Analysis Findings	Meet with Product Owner to reconfirm Requirements	Receive Task & Proposal Feedbacks
	Mr.Thong	Group Meetings Schedule	Backlog stories for Admin functions	Structure design for database	Report Analysis Findings	Meet with Product Owner to reconfirm Requirements	Receive Task & Proposal Feedbacks
	Mr.Vinh	Group Meetings Schedule	Backlog stories for Student functions	Schema for Blog's data flow	Report Analysis Findings	Meet with Product Owner to reconfirm Requirements	Receive Task & Proposal Feedbacks
	Mr.Trung	Group Meetings Schedule	Backlog stories for Tutor functions	Schema for Allocation function	Report Analysis Findings	Meet with Product Owner to reconfirm Requirements	Receive Task & Proposal Feedbacks
	Ms.Hue	Group Meetings Schedule	Backlog stories for Staffs functions	Schema for Comment's data flow	Report Analysis Findings	Meet with Product Owner to reconfirm Requirements	Receive Task & Proposal Feedbacks
	Mr. Phong	--	--	--	--	--	--

Did you encounter any problem?	Mr.Hieu	--	--	--	--	--	--
	Mr.Thong	--	--	--	--	--	--
	Mr.Vinh	--	--	--	--	--	--
	Mr.Trung	--	--	--	--	--	--
	Ms.Hue	--	--	--	--	--	--

Question	Person	week 2<Database Design>					
		Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
What did you do yesterday?	Mr. Phong	Allocate Works for each Team Members	General design for the Database	Allocating the relationship of the data	Collecting member's work	Collecting member's work	Meet with Product Owner to Discuss Overall Design and Preperation
	Mr.Hieu	Receive Task & Proposal Feedbacks	Allocating design	MySQL query - Field	Reporter	Finalize work during week	Meet with Product Owner to Discuss Overall Design and Preperation
	Mr.Thong	Receive Task & Proposal Feedbacks	Design of Dashboard	MySQL query - Relationship	Time managerment	Finalize work during week	Meet with Product Owner to Discuss Overall Design and Preperation
	Mr.Vinh	Receive Task & Proposal Feedbacks	Responsive website design	How the data being collected	Leader assign for each sprint	Finalize work during week	Meet with Product Owner to Discuss Overall Design and Preperation
	Mr.Trung	Receive Task & Proposal Feedbacks	Design of blog page	MySQL query - Table	Location booking	Finalize work during week	Meet with Product Owner to Discuss Overall Design and Preperation
	Ms.Hue	Receive Task & Proposal Feedbacks	Sitemap	Connecting the data to the web surface	Recording	Finalize work during week	Meet with Product Owner to Discuss Overall Design and Preperation

What did you do today?	Mr. Phong	General design for the Database	Allocating the relationship of the data	Collecting member's work	Collecting member's work	Meet with Product Owner to Discuss Overall Design and Preperation	Alocating works for next week for each member
	Mr.Hieu	Allocating design	MySQL query - Field	Reporter	Finalize work during week	Meet with Product Owner to Discuss Overall Design and Preperation	Receive Task & Proposal Feedbacks
	Mr.Thong	Design of Dashboard	MySQL query - Relationship	Time managerment	Finalize work during week	Meet with Product Owner to Discuss Overall Design and Preperation	Receive Task & Proposal Feedbacks
	Mr.Vinh	Responsive website design	How the data being collected	Leader assign for each sprint	Finalize work during week	Meet with Product Owner to Discuss Overall Design and Preperation	Receive Task & Proposal Feedbacks
	Mr.Trung	Design of blog page	MySQL query - Table	Location booking	Finalize work during week	Meet with Product Owner to Discuss Overall Design and Preperation	Receive Task & Proposal Feedbacks
	Ms.Hue	Sitemap	Connecting the data to the web surface	Recording	Finalize work during week	Meet with Product Owner to Discuss Overall Design and Preperation	Receive Task & Proposal Feedbacks
Did you encounter any problem?	Mr. Phong	--	--	--	--	--	--
	Mr.Hieu	--	--	--	--	--	--
	Mr.Thong	--	--	--	--	--	--
	Mr.Vinh	--	--	--	--	--	--
	Mr.Trung	--	--	--	--	--	--
	Ms.Hue	--	--	--	--	--	--

Question	Person	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
What did you do yesterday?	Mr. Phong	Alocating works for next week for each member	Message database tables	Admin's User Management Page, Admin Dashboard, Admin add Role Page, Admin add user Page	Admin's User Management Page, Admin Dashboard, Admin add Role Page, Admin add user Page	Admin's User Management Page, Admin Dashboard, Admin add Role Page, Admin add user Page	Meet the product owner to discuss and present the user interface of the site
	Mr.Hieu	Receive Task & Proposal Feedbacks	Blog database tables	Edit User's Information pages, Blog management page, Blog details page, Blog Comment page	Edit User's Information pages, Blog management page, Blog details page, Blog Comment page	Edit User's Information pages, Blog management page, Blog details page, Blog Comment page	Meet the product owner to discuss and present the user interface of the site
	Mr.Thong	Receive Task & Proposal Feedbacks	Upload File database tables	Admin change information page, Meeting management page, Uploaded file management page	Admin change information page, Meeting management page, Uploaded file management page	Admin change information page, Meeting management page, Uploaded file management page	Meet the product owner to discuss and present the user interface of the site
	Mr.Vinh	Receive Task & Proposal Feedbacks	Allocating database tables	Login Page, Student Dashboard, Student Join Meeting Page, Document Upload Page, Reset Password Page	Login Page, Student Dashboard, Student Join Meeting Page, Document Upload Page, Reset Password Page	Login Page, Student Dashboard, Student Join Meeting Page, Document Upload Page, Reset Password Page	Meet the product owner to discuss and present the user interface of the site
	Mr.Trung	Receive Task & Proposal Feedbacks	User Information database tables	Document comment page, Staff add user Page, Staff change information page, Message Board	Document comment page, Staff add user Page, Staff change information page, Message Board	Document comment page, Staff add user Page, Staff change information page, Message Board	Meet the product owner to discuss and present the user interface of the site
	Ms.Hue	Receive Task & Proposal Feedbacks	Meeting Database tables	Staff's User Management Page, Tutor Holding Meeting Page, Tutor Dashboard, Staff allocating pages	Staff's User Management Page, Tutor Holding Meeting Page, Tutor Dashboard, Staff allocating pages	Staff's User Management Page, Tutor Holding Meeting Page, Tutor Dashboard, Staff allocating pages	Meet the product owner to discuss and present the user interface of the site
What did you do today?	Mr. Phong	Message database tables	Admin's User Management Page, Admin Dashboard, Admin add Role Page, Admin add user Page	Admin's User Management Page, Admin Dashboard, Admin add Role Page, Admin add user Page	Admin's User Management Page, Admin Dashboard, Admin add Role Page, Admin add user Page	Meet the product owner to discuss and present the user interface of the site	organize meeting problems encountered when presenting the user interface, and plan to modify the interface according to customer requirements
	Mr.Hieu	Blog database tables	Edit User's Information pages, Blog management page, Blog details page, Blog Comment page	Edit User's Information pages, Blog management page, Blog details page, Blog Comment page	Edit User's Information pages, Blog management page, Blog details page, Blog Comment page	Meet the product owner to discuss and present the user interface of the site	organize meeting problems encountered when presenting the user interface, and plan to modify the interface according to customer requirements
	Mr.Thong	Upload File database tables	Admin change information page, Meeting management page, Uploaded file management page	Admin change information page, Meeting management page, Uploaded file management page	Admin change information page, Meeting management page, Uploaded file management page	Meet the product owner to discuss and present the user interface of the site	organize meeting problems encountered when presenting the user interface, and plan to modify the interface according to customer requirements
	Mr.Vinh	Allocating database tables	Login Page, Student Dashboard, Student Join Meeting Page, Document Upload Page, Reset Password Page	Login Page, Student Dashboard, Student Join Meeting Page, Document Upload Page, Reset Password Page	Login Page, Student Dashboard, Student Join Meeting Page, Document Upload Page, Reset Password Page	Meet the product owner to discuss and present the user interface of the site	organize meeting problems encountered when presenting the user interface, and plan to modify the interface according to customer requirements
	Mr.Trung	User Information database tables	Document comment page, Staff add user Page, Staff change information page, Message Board	Document comment page, Staff add user Page, Staff change information page, Message Board	Document comment page, Staff add user Page, Staff change information page, Message Board	Meet the product owner to discuss and present the user interface of the site	organize meeting problems encountered when presenting the user interface, and plan to modify the interface according to customer requirements
	Ms.Hue	Meeting Database tables	Staff's User Management Page, Tutor Holding Meeting Page, Tutor Dashboard, Staff allocating pages	Staff's User Management Page, Tutor Holding Meeting Page, Tutor Dashboard, Staff allocating pages	Staff's User Management Page, Tutor Holding Meeting Page, Tutor Dashboard, Staff allocating pages	Meet the product owner to discuss and present the user interface of the site	organize meeting problems encountered when presenting the user interface, and plan to modify the interface according to customer requirements
	Mr. Phong	--	--	--	--	--	--
	Mr.Hieu	--	--	--	--	--	--

Did you encounter any problem?	Mr.Thong	--	--	--	--	--	--
	Mr.Vinh	--	--	--	--	--	--

Question	Person	week 4<Front-end>					
		Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
What did you do yesterday?	Mr. Phong	organize meeting problems encountered when presenting the user interface, and plan to modify the interface according to customer requirements	Customize the interface according to customer requirements	Coding Front-end for Admin's User Management Page, Admin Dashboard, Admin add Role Page, Admin add user Page	Dashboard Designer for Tutor, Student, Staffs	Testing on Staff pages	Write progress reports for phase 2
	Mr.Hieu	organize meeting problems encountered when presenting the user interface, and plan to modify the interface according to customer requirements	Customize the interface according to customer requirements	Edit User's Information pages, Blog management page, Blog details page, Blog Comment page	Comment format design	Testing on Staff pages	Write progress reports for phase 2
	Mr.Thong	organize meeting problems encountered when presenting the user interface, and plan to modify the interface according to customer requirements	Customize the interface according to customer requirements	Coding Front-end for Admin change information page, Meeting management page, Uploaded file management page	Chat box designer	Testing on Tutor Pages	Write progress reports for phase 2
	Mr.Vinh	organize meeting problems encountered when presenting the user interface, and plan to modify the interface according to customer requirements	Customize the interface according to customer requirements	Coding Front-end for Login Page, Student Dashboard, Student Join Meeting Page, Document Upload Page, Reset Password Page	Meeting report designer	Tesing on Student pages	Write progress reports for phase 2
	Mr.Trung	organize meeting problems encountered when presenting the user interface, and plan to modify the interface according to customer requirements	Customize the interface according to customer requirements	Coding Front-end for Document comment page, Staff add user Page, Staff change information page, Message Board	Chat box designer	Testing on Admin Pages	Write progress reports for phase 2

	Ms.Hue	organize meeting problems encountered when presenting the user interface, and plan to modify the interface according to customer requirements	Customize the interface according to customer requirements	Coding Front-end for Staff's User Management Page, Tutor Holding Meeting Page, Tutor Dashboard, Staff allocating pages	Dashboard Designer for Admin	Tesing on Student pages	Write progress reports for phase 2
What did you do today?	Mr. Phong	Customize the interface according to customer requirements	Coding Front-end for Admin's User Management Page, Admin Dashboard, Admin add Role Page, Admin add user Page	Dashboard Designer for Tutor, Student, Staffs	Testing on Staff pages	Write progress reports for phase 2	Organize a meeting to inform about the early stages of completion, division and planning for the back-end stage
	Mr.Hieu	Customize the interface according to customer requirements	Edit User's Information pages, Blog management page, Blog details page, Blog Comment page	Comment format design	Testing on Staff pages	Write progress reports for phase 2	Organize a meeting to inform about the early stages of completion, division and planning for the back-end stage
	Mr.Thong	Customize the interface according to customer requirements	Coding Front-end for Admin change information page, Meeting management page, Uploaded file management page	Chat box designer	Testing on Tutor Pages	Write progress reports for phase 2	Organize a meeting to inform about the early stages of completion, division and planning for the back-end stage
	Mr.Vinh	Customize the interface according to customer requirements	Coding Front-end for Login Page, Student Dashboard, Student Join Meeting Page, Document Upload Page, Reset Password Page	Meeting report designer	Tesing on Student pages	Write progress reports for phase 2	Organize a meeting to inform about the early stages of completion, division and planning for the back-end stage
	Mr.Trung	Customize the interface according to customer requirements	Coding Front-end for Document comment page, Staff add user Page, Staff change information page, Message Board	Chat box designer	Testing on Admin Pages	Write progress reports for phase 2	Organize a meeting to inform about the early stages of completion, division and planning for the back-end stage
	Ms.Hue	Customize the interface according to customer requirements	Coding Front-end for Staff's User Management Page, Tutor Holding Meeting Page, Tutor Dashboard, Staff allocating pages	Dashboard Designer for Admin	Tesing on Student pages	Write progress reports for phase 2	Organize a meeting to inform about the early stages of completion, division and planning for the back-end stage
Did you encounter any problem?	Mr. Phong	--	--	--	--	--	--
	Mr.Hieu	--	--	--	--	--	--
	Mr.Thong	--	--	--	--	--	--
	Mr.Vinh	--	--	--	--	--	--
	Mr.Trung	--	--	--	--	--	--
	Ms.Hue	--	--	--	--	--	--

Question	Person	week 5<Build general Functions>					
		Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
What did you do yesterday?	Mr. Phong	Organize a meeting to inform about the early stages of completion, division and planning for the back-end stage	Modify database design for each Back-end functions	Double check the result and report	Build Add function	Double check the result and report	Build send and receive message function
	Mr.Hieu	Organize a meeting to inform about the early stages of completion, division and planning for the back-end stage	Day Off	Day Off	Build Edit function	Tesing plan for password function	Conduct the test
	Mr.Thong	Organize a meeting to inform about the early stages of completion, division and planning for the back-end stage	Implement testing Register function	Implement testing Login/Logout function	Double check the result and report	Implement testing for profile functions	Build the test plan for message function, Implement testing for password reset function
	Mr.Vinh	Organize a meeting to inform about the early stages of completion, division and planning for the back-end stage	Modify database design for each Back-end functions, Build Register function for unauthorized users	Day Off	Day Off	Build reset password functions, Conduct the test	Day Off
	Mr.Trung	Organize a meeting to inform about the early stages of completion, division and planning for the back-end stage	Day Off	Conduct the test	Build profile function (Detail, add, edit)	Conduct the test on the backend for password function	Implement testing for send and receive message function, Double check the result and report
	Ms.Hue	Organize a meeting to inform about the early stages of completion, division and planning for the back-end stage	Conduct the test	Build Login/Logout function, Build the test plan for Login/Logout function	Build View Details function	Build the testing plan for profile function	Conduct the test
What did you do today?	Mr. Phong	Modify database design for each Back-end functions	Double check the result and report	Build Add function	Double check the result and report	Build send and receive message function	Meeting with customer to confirm the final result of this week
	Mr.Hieu	Day Off	Day Off	Build Edit function	Tesing plan for password function	Conduct the test	Meeting with customer to confirm the final result of this week
	Mr.Thong	Implement testing Register function	Implement testing Login/Logout function	Double check the result and report	Implement testing for profile functions	Build the test plan for message function, Implement testing for password reset function	Meeting with customer to confirm the final result of this week
	Mr.Vinh	Modify database design for each Back-end functions, Build Register function for unauthorized users	Day Off	Day Off	Build reset password functions, Conduct the test	Day Off	Meeting with customer to confirm the final result of this week
	Mr.Trung	Day Off	Conduct the test	Build profile function (Detail, add, edit)	Conduct the test on the backend for password function	Implement testing for send and receive message function, Double check the result and report	Meeting with customer to confirm the final result of this week

	Ms.Hue	Conduct the test	Build Login/Logout function, Build the test plan for Login/Logout function	Build View Details function	Build the testing plan for profile function	Conduct the test	Meeting with customer to confirm the final result of this week
Did you encounter any problem?	Mr. Phong						
	Mr.Hieu						
	Mr.Thong						
	Mr.Vinh	Database need to tobe modified fews fields characteristic					
	Mr.Trung						
	Ms.Hue						

Question	Person	week 6<Build functions>					
		Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
What did you do yesterday?	Mr. Phong	Meeting with customer to confirm the final result of this week	Build the test plan for blog writing function	Double check the result and report	Build blog writing function	#REF!	Build the test plan for database connection and display dashboard
	Mr.Hieu	Meeting with customer to confirm the final result of this week	Double check the result and report	Build the test plan for meeting/recording function	Implement testing for blog writing function, Conduct the test	Double check the result and report	Build allocate and deallocate functions for tutor role
	Mr.Thong	Meeting with customer to confirm the final result of this week	Build arrange and record meetings function	Build upload documents and add comments functions	Build the test plan for upload and comment function	Conduct the test	Implement testing for allocate and deallocate functions
	Mr.Vinh	Meeting with customer to confirm the final result of this week	Implement testing for arrange and record meeting functions	Implement testing for upload documents and add comments functions	Conduct the test	Implement testing for database connection, fill data into Dashboard and show on website interface, Conduct the test	Implement testing for upload documents and add comments functions

	Mr.Trung	Meeting with customer to confirm the final result of this week	Build the test plan for message function	Implement testing for upload documents and add comments functions	Implement testing for blog writing function	Implement testing for database connection, fill data into Dashboard and show on website interface	Double check the result and report
	Ms.Hue	Meeting with customer to confirm the final result of this week	conduct the test for arrange and record meeting function	Conduct the test	Double check the result and report	Establish database connection, fill data into Dashboard and show on website interface	Conduct the test
What did you do today?	Mr. Phong	Conduct the test	Double check the result and report	Build blog writing function	Build the test plan for blog writing function	Build the test plan for database connection and display dashboard	Meeting with customer to confirm the final result of this week
	Mr.Hieu	Double check the result and report	Build the test plan for meeting/recording function	Implement testing for blog writing function, Conduct the test	Double check the result and report	Build allocate and deallocate functions for tutor role	Meeting with customer to confirm the final result of this week
	Mr.Thong	Build arrange and record meetings function	Build upload documents and add comments functions	Build the test plan for upload and comment function	Conduct the test	Implement testing for allocate and deallocate functions	Meeting with customer to confirm the final result of this week
	Mr.Vinh	Implement testing for arrange and record meeting functions	Implement testing for upload documents and add comments functions	Conduct the test	Implement testing for database connection, fill data into Dashboard and show on website interface, Conduct the test	Implement testing for upload documents and add comments functions	Meeting with customer to confirm the final result of this week
	Mr.Trung	Build the test plan for message function	Implement testing for upload documents and add comments functions	Implement testing for blog writing function	Implement testing for database connection, fill data into Dashboard and show on website interface	Double check the result and report	Meeting with customer to confirm the final result of this week
	Ms.Hue	conduct the test for arrange and record meeting function	Conduct the test	Double check the result and report	Establish database connection, fill data into Dashboard and show on website interface	Conduct the test	Meeting with customer to confirm the final result of this week
Did you encounter any problem?	Mr. Phong						
	Mr.Hieu						
	Mr.Thong						
	Mr.Vinh						
	Mr.Trung						
	Ms.Hue						

Question	Person	week 7<Build functions & implementation>					
		Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
What did you do yesterday?	Mr. Phong	Meeting with customer to confirm the final result of this week	Build the test plan for allocate and deallocate functions	Build import/export functions for admin role	Build edit role function for admin role	Build view user's information on staff side	Build Disable account function for admin role, Implement testing for add/disable new account functions, Report and recording the result
	Mr.Hieu	Meeting with customer to confirm the final result of this week	Build the test plan for allocate and deallocate functions	Implement testing for import/export functions	Implement testing for edit role function	Build view user's information on user side	Testing plan for password function, Conduct the testing on frontend side
	Mr.Thong	Meeting with customer to confirm the final result of this week	Build view the statistics (number of messages in the last 7 days) function for tutor role	Build the test plan for Statistics functions, Implement testing for import/export functions	Double check the final result and report	Implement testing for view a specific user's information function	Implement testing for user's password function, Conduct the test on the frontend
	Mr.Vinh	Meeting with customer to confirm the final result of this week	Conduct the test	Double check the result and report	Testing plan for edit role function	Build view a specific user's information function for admin, Implement testing for view a specific user's information function, Dashboard display testing plan	Build add/disable new account functions for admin role, Testing Plan for add/disable account
	Mr.Trung	Meeting with customer to confirm the final result of this week	Implement testing for the statistics function	Conduct the test	Build edit role function for admin role	Build view a specific user's information function for admin	Build add/disable new account functions for admin role, Conduct the test on the backend
	Ms.Hue	Meeting with customer to confirm the final result of this week	Double check the result and report	Conduct the test	Conduct the test	Build view user's information on tutor side, Conduct the test	Build change user's password function with admin's privilege, Build Add new account function for admin role, Conduct the testing on backend side
What did you do today?	Mr. Phong	Build the test plan for allocate and deallocate functions	Build import/export functions for admin role	Build edit role function for admin role	Build view user's information on staff side	Build Disable account function for admin role, Implement testing for add/disable new account functions, Report and recording the result	Meeting with customer to confirm the final result of this week
	Mr.Hieu	Build the test plan for allocate and deallocate functions	Implement testing for import/export functions	Implement testing for edit role function	Build view user's information on user side	Testing plan for password function, Conduct the testing on frontend side	Meeting with customer to confirm the final result of this week
	Mr.Thong	Build view the statistics (number of messages in the last 7 days) function for tutor role	Build the test plan for Statistics functions, Implement testing for import/export functions	Double check the final result and report	Implement testing for view a specific user's information function	Implement testing for user's password function, Conduct the test on the frontend	Meeting with customer to confirm the final result of this week
	Mr.Vinh	Conduct the test	Double check the result and report	Testing plan for edit role function	Build view a specific user's information function for admin, Implement testing for view a specific user's information function, Dashboard display testing plan	Build add/disable new account functions for admin role, Testing Plan for add/disable account	Meeting with customer to confirm the final result of this week
	Mr.Trung	Implement testing for the statistics function	Conduct the test	Build edit role function for admin role	Build view a specific user's information function for admin	Build add/disable new account functions for admin role, Conduct the test on the backend	Meeting with customer to confirm the final result of this week

	Ms.Hue	Double check the result and report	Build the test plan for import/export functions	Conduct the test	Build view user's information on tutor side, Conduct the test	Build change user's password function with admin's privilege, Build Add new account function for admin role, Conduct the testing on backend side	Meeting with customer to confirm the final result of this week
Did you encounter any problem?	Mr. Phong						
	Mr.Hieu						
	Mr.Thong						
	Mr.Vinh						
	Mr.Trung						
	Ms.Hue						

Question	Person	week 8< Testing & Deployment>					
		Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
What did you do yesterday?	Mr. Phong	Meeting with customer to confirm the final result of this week	Testing on Staff pages	Upload website to host server (Update and configure website settings) Configure server side	Develop maintenance schedule for the system	Group Report, Individual report	Upload source code to githuh (as a admin)
	Mr.Hieu	Meeting with customer to confirm the final result of this week	Testing on Comment pages	Testing on Comment pages	Presentation for all Admin functions	Group Report, Individual report	Group Report, Individual report
	Mr.Thong	Meeting with customer to confirm the final result of this week	Testing on Tutor Pages	Record ScreenCast Recording	Write guidelines/ manuals for website Manuals for using website on the basic level	Group Report, Individual report	Group Report, Individual report
	Mr.Vinh	Meeting with customer to confirm the final result of this week	Sprint planning final review Implement final system testing Teting on Student pages	Sprint planning final review Implement final system testing Teting on Student pages	General guidelines	Group Report, Individual report	Presentation for all Students functions

	Mr.Trung	Meeting with customer to confirm the final result of this week	Implement final system testing Testing on Admin Pages	Implement final system testing Testing on Admin Pages	Manuals for using website on the basic level	Group Report, Individual report	Upload source code to github
	Ms.Hue	Meeting with customer to confirm the final result of this week	Tesing on General pages	Upload website to host server (Update and configure website settings) Upload source	Upload website to host server (Update and configure website settings) Upload source	Group Report, Individual report	Upload source code to github (as a admin)
What did you do today?	Mr. Phong	Testing on Staff pages	Upload website to host server (Update and configure website settings) Configure server side	Develop maintenance schedule for the system	Group Report, Individual report	Upload source code to github (as a admin)	FAQ
	Mr.Hieu	Testing on Comment pages	Testing on Comment pages	Presentation for all Admin functions	Group Report, Individual report	Group Report, Individual report	Presentation for all Admin functions
	Mr.Thong	Testing on Tutor Pages	Record ScreenCast Recording	Write guidelines/ manuals for website Manuals for using website on the basic level	Group Report, Individual report	Group Report, Individual report	Presentation for all Staff functions
	Mr.Vinh	Sprint planning final review Implement final system testing Tesing on Student pages	Sprint planning final review Implement final system testing Tesing on Student pages	General guidelines	Group Report, Individual report	Presentation for all Students functions	Presentation for all Students functions
	Mr.Trung	Implement final system testing Testing on Admin Pages	Implement final system testing Testing on Admin Pages	Manuals for using website on the basic level	Group Report, Individual report	Upload source code to github	Presentation for all Tutor functions
	Ms.Hue	Tesing on General pages	Upload website to host server (Update and configure website settings) Upload source	Upload website to host server (Update and configure website settings) Upload source	Group Report, Individual report	Upload source code to github (as a admin)	FAQ
Did you encounter any problem?	Mr. Phong						
	Mr.Hieu						
	Mr.Thong
